About Me

AI & Data Science student with hands-on experience building computer vision and AI-powered applications using Python, YOLOv8, React, and Flask. Passionate about machine learning systems, full-stack development, and solving real-world problems with data-driven solutions.

Education

Chhatrapati Shahu College of Engineering (CSMSS) — Chhatrapati Sambhajinagar, Maharashtra
B. Tech Artificial Intelligence and Data Science — Nov 2022 - June 2026

Shivchhatrapati College — Chhatrapati Sambhajinagar, Maharashtra
HSC Computer Science, Percentage: 74% — Sept 2020 - Mar 2022

Projects

AI Helmet Detection System | Link — *React.js | Flask | YOLOv8 | OpenCV.*

- Developed a **YOLOv8-based real-time helmet detection system** trained on **5,000+ annotated images**..
- Achieved **92% detection accuracy** using transfer learning and data augmentation.
- Built a **React + Flask dashboard** to display live detection results and analytics.
- Implemented **JWT authentication** for secure user login

ResuMate | Link — *ReactJs | TailwindCSS | Firebase | Gemini API.*

- Built an **AI-powered resume and cover letter generator** reducing creation time by **50%**.
- Integrated **Gemini API** to generate personalized resumes based on user input.
- Developed **React + TailwindCSS UI** for real-time editing and template selection.
- Generated tailored resumes based on **user skills and job descriptions**.

AI-Powered Intelligent Traffic Monitoring System | Link — *Python | OpenCV| YOLOv8 | Flask.*

- Developed a **YOLOv8-based traffic monitoring system** for vehicle detection and counting from CCTV streams.
- Achieved **94% detection accuracy** for cars, buses, trucks, and bikes.
- Calculates **traffic density and congestion alerts** using real-time analytics.

Technical Skills

Programming Languages:	JavaScript, Python, Java.
Libraries/Frameworks:	React JS, Tailwind CSS, Node JS.
Data Science & AI:	Machine Learning, Deep Learning, Natural Language Processing
Tools/Platforms:	Git, GitHub, VSCode.
Databases:	MongoDB, MySQL, SQLite, Firebase.
Soft Skills:	Communication, Teamwork, Leadership.
Core CS:	Data Structures, Algorithms, OOP

Achievements and Hobbies

- Best Candidate **NCC Camp Awarded** for outstanding **performance, leadership, and discipline** during NCC training camp activities.
- Solved **50+ algorithmic** problems on LeetCode.
- Built and deployed **5+ AI and full-stack projects** on GitHub**.**

Certifications

- Supervised Machine Learning: Regression And Classification – **Coursera**
- Meta Front-End Developer - **Coursera**
- Web Development – **Internshala**
- Python Data Structures & Algorithms **– Udemy**
